Delight in the
sound of life.

The new Motion 13.

Whether having a nice chat over a coffee, playing in the garden with your grandchildren or just sitting on the balcony listening to the birds sing, Motion™ 13 from Signia lets you enjoy the most natural sound experience and superior audio streaming from your TV and smartphone.

A tailor-made hearing experience

Motion 13 offers a variety of fitting and handling options to perfectly meet your wishes and requirements. This way, your hearing care professional can customize your personal hearing solution.

High level of wearing comfort

As a behind-the-ear, or BTE model, the small Motion 13 sits snugly and discreetly behind your ear. Its ergonomic shape makes it extra comfortable to wear.

For all levels of hearing loss

Motion 13 and its powerful cousin Motion 13P give you back the natural sound of life by tackling mild and moderate as well as severe to profound hearing loss.

Experience the natural joy of hearing.

Hear the sound of your own voice as nature intended.

Whether reading a book to a child, having a little chat with your neighbors, or looking at holiday pictures with friends - Signia's Motion 13 lets you fully enjoy all of life's wonderful moments.

It lets you perceive your own voice in perfect balance with your environment. This way, you can enjoy the most natural hearing experience and highest hearing performance, whether you're relaxing with a good book or exploring the great outdoors with friends.

Please note:

Features may vary depending on the configuration of the individual hearing aid. Your hearing care professional will be happy to assist you.

Hearing your own voice

Many hearing aid wearers do not like the sound of their own voice as it sounds loud and unnatural. As a world's first, Signia's Motion 13 solves this: Its **OVP™ (Own Voice Processing)** provides you with a natural sounding own voice combined with optimal hearing of all other sounds for the most pleasant, natural listening experience.

Speech in noise

Thanks to its **Speech Quality**, Motion 13 enables you to hear speech clearly in all situations through advanced noise suppression technologies. This makes it easier for you to understand your conversation partner in very noisy environments such as a restaurant or a conference.

Conversation while moving

The **3D Classifier** of Motion 13 provides optimal hearing of your own voice and your acoustic environment even when moving - it automatically adjusts the settings based on the **myControl App's motion data**.

Crystal clear sound

Motion 13's **Sound Clarity** offers the most natural, lifelike sound in all environments.

Enjoy the full comfort of connectivity.

Enjoy direct streaming of phone calls, music, and TV.

Whether streaming phone calls, TV audio or music straight into your ears, Motion 13 from Signia keeps you connected to everything that's important.

Via the myControl App*, you can stream audio from various sources directly into your hearing aids and control them remotely. All you need is a smartphone.
